

Specially engineered for the modern urban explorer looking for a contemporary and dynamic take on driving, the UX provides a unique approach to the compact luxury crossover. It combines maneuverability and versatile utility in a stylish package that offers advanced and newly updated technology to designed tackle the modern frontier.

EXTERIOR

The UX has a distinctive presence, with a crisp, sculpted exterior highlighted by dramatically flared front and rear fenders, and features aerodynamic taillamps that blend 120 LEDs into one continuous line that tapers to just three millimeters in the center. The aggressive LED headlamp and DRL design of the UX is combined with a striking interpretation of the Lexus signature grille that appears to change shape depending on how it's viewed.

INTERIOR

Inspired by traditional Japanese verandas, or *engawa*, the UX dash was purposefully designed to appear as if it was extending into the hood in order to provide drivers with optimal visibility. The available wash dash ornamentation adds to the crafted interior by adding a unique texture to the dash.

TOTAL CONNECTIVITY

The UX multimedia system includes standard Apple CarPlay® and Android Auto™ integration and Lexus+Alexa in-car functionality. Lexus Enform services—Safety Connect, Service Connect, Remote with Lexus skill for Amazon Alexa, Destination Assist, App Suite 2.0, Wi-Fi™ and Dynamic Navigation—further enhance the connected experience in the UX, to give you more options to stay in touch and personalize your driving experience.

PERFORMANCE

The UX offers drivers amazing control. Responsive handling is assured by the Global Architecture for Compact (GA-C) platform, which gives the UX a low center of gravity and excellent urban maneuverability, thanks to a class-leading turning radius. The UX drives like a passenger car, feels secure like a crossover and offers agile driving dynamics.
